Before / After

EXPERT IN RESTORATION OF CAST IRON RADIATORS

- Restoration of hydronic or steam radiators
- Resizing and leak repairs
- Large inventory of restored radiators

ecorad.ca

DID YOU KNOW THAT...?

- The many layers of paint and the accumulation of inner scale can reduce the efficiency of the radiator by up to 15%.
- Our process of water pressure stripping is not abrasive and preserves the natural patina of iron.
- We can electrify radiators as an autonomous unit.
- Ecorad restored 260 radiators in Union Station, Toronto.
- We serve all of North America.
